EXPERIENCE

Software Engineer Intern | Grey Volk | June 2026

- Leveraged AI-assisted workflows to architect a 45-user internal operations platform, significantly accelerating full-stack feature delivery.
- Engineered 8 operational modules (Payroll, Inventory, HR) with strict Role-Based Access Control (RBAC) and schema validation across 30+ RESTful APIs.
- Architected an asynchronous AI support agent using LLM function calling and Redis queues to parse, classify, and auto-respond to customer emails.
- Owned the software development lifecycle, implementing automated testing practices to ensure production stability and continuous enhancements.

Freelance Full-Stack Developer | Self-Employed | April 2026 - May 2026

- Orchestrated the end-to-end development of [HavenHomes](#), a custom real estate platform, deploying on AWS infrastructure (EC2, S3, CloudFront) for high availability.
- Integrated [Project Vienna](#) (custom AI/NLP assistant via LLM APIs) to dynamically process property queries and route high-intent leads to a priority system.
- Engineered secure RESTful Node.js backend APIs and optimized frontend rendering with lazy loading, improving Core Web Vitals and reducing load times.

PROJECTS

Distributed Settlement Engine for Predictive Markets

- Developing a high-performance system for concurrent financial transaction processing.
- Designed event-driven architecture using Kafka for real-time trade handling.
- Implemented multithreaded processing in C++ to ensure consistency under concurrency.
- Built REST APIs and WebSocket-based real-time market feeds.

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB, PostgreSQL

AI/ML: OpenAI API, LLM Integration, NLP-based query handling, ML Model Inference

Systems: Multithreading, Event-driven Architecture, WebSockets

Tools: Git, GitHub, Redis, Kafka

EDUCATION

Dr. B. R. Ambedkar National Institute of Technology (NIT), Jalandhar Bachelor of Technology in Electronics and Communication CGPA:8.43/10 | 2024-2028

Relevant Coursework: Data Structures, Algorithms, Database Management Systems (DBMS)

PM SHRI Kendriya Vidyalaya No.1, Air Force Station Pathankot, Punjab

Class XII (Senior Secondary) [Board: CBSE] Percentage 94.6% | 2023-2024

ACHIEVEMENTS

- Problem Solving:** Solved 250+ algorithmic problems on LeetCode (Data Structures, Graphs, DP).
- Competitive Programming:** Achieved Pupil rank (1373) on [Codeforces](#) by consistently competing in algorithmic contests.
